PROFILE

Front End Developer with 3+ years of experience and 1+ year of full-stack experience, with more than 25 websites shipped: AI tools, e-commerce platforms, dashboards and landing pages. Currently a UI/UX Engineer working remotely for a US company on Magento 2 storefronts and payment integrations. Focused on reusable components, scalable architecture, clean API integration and performance. A fast learner and clear communicator.

EXPERIENCE

UI/UX Engineer · Axyys — 10/2024 – Present · Remote (USA)

- Build e-commerce features with Magento 2, PHP, React and Venia UI.
- Implemented the Sezzle payment method end to end: new UI components plus backend module updates to support extended functionality.

Web Developer · Appassion — 06/2023 – 09/2024 · Chișinău, Moldova

- Built multiple Bubble.io websites and integrated custom code into Bubble workflows.
- Developed full-stack Next.js / React applications using Stripe, Twilio and REST APIs.

University Practice · Noction — 09/2023 – 11/2023 · Chișinău, Moldova

- Developed a Vue.js e-commerce application that scraped and aggregated product data from multiple external websites.

Intern · JivyGroup — 12/2022 – 02/2023 · Chișinău, Moldova

- Contributed to a React.js admin panel: charts, reusable UI elements, time-tracking tools and utility modules.
